

# Bulletin of Advanced Course of Akashi National College of Technology

NO.13 (March.2010)

## CONTENTS

Simulation Experiments using Aqueous Solution to Clarify the Behavior of Metal Solidification	.....Keiji AKO	(1)
Evaluation of Thermal Properties of Porous Silicon Using Photoacoustic Technique	.....Tatsuya OISHI	(7)
The Construction of a Cube-Connected-Cycles Coterie	.....Naoya SHIMOMURA	(13)
Trilogical Characteristic of Solid Lubricant Layer Formed by Laser Cladding	.....Tetsuya TAKASHIMA	(19)
Turbulence Characteristics in the Regions of Negative Turbulence-Energy Production	.....Yuichiro TANAKA	(25)
Construction of a Supporting System for Visiting Lecturers Using a Computer Network	.....Yoshiki TANAKA	(31)
An exterior-point approach to the fixed-order mixed $H_{\infty}/D$ -stability controller design	.....Takeshi TERADA	(37)
Development of a Thermoacoustic Refrigerator	.....Junpei NEMOTO	(43)
Self-Localization for Mobile Robots Using Laser Mouse Sensors and a Range Sensor	.....Yuto HAMAGUCHI	(49)
A Study on the Turbulent Bulge of a Disturbed Turbulent Boundary Layer	.....Takafumi HIGUCHI	(55)
Wear Simulation by Discrete Element Method	.....Hirotoshi MAEDA	(61)
A Study of the Interface Usability for PC Using Camera Capture System	.....Naomi MASHIBA	(67)
Comparison of Calculated Aerodynamic Performance of a Propeller and Experimented One at Low Reynolds Numbers	.....Tomohiro MARUYAMA	(73)
Development of Performance Simulator for Thermoacoustic Refrigerator	.....Taichi MURAKAMI	(79)
Improvement of Internal Grinding Performance in Mass Production	.....Yuya YAMAMOTO	(85)
Formation of PEDOT:PSS thin film to a flexible substrate	.....Satoru YOSHIZU	(91)
Evaluation of Aerodynamic Characteristics of Wings at Low Reynolds Numbers	.....Tomoya WAKAMATSU	(97)

Possibility of Effective Use of Concrete Sludge as Additive	.....Yaoki IKEFUJI (103)
Seismic response control of two structurally controlled buildings using jointed viscous dampers	.....Hiroshi IWAMOTO (109)
A Study on the Flexural Performance of Wooden Horizontal Members with the Partial Loss of the Sectional Area Caused by Pre-cut Machining	.....Hidemasa KAIHARA (115)
The Strength Characteristics of Muddy Soils Mixed With Granulated Coal Fly Ash	.....Takuya KAMIHIRA (121)
The Property of Compaction and The Measurement of Soil Density by Oscillation Using Tracked Vehicle in a Compaction	.....Hitoshi KOTERA (127)
Deformation Behavior Of Reinforced Earth Wall With Discrete-Layout Reinforcements	.....Youhei SAITSU (133)
Study on Odor Control at Irrigation Ponds in Urbanized Areas	.....Shota SUGIMOTO (139)
135° Promenade : a public space connecting the city of Akashi	.....Kousuke HIROTA (145)
Consideration and proposal on seismic retrofit of the existing wooden structures using the traditional structural method	.....Yu TANAKA (151)
On civic cooperative activity for Conservation and applied use of Historic Environments -People's Independent Activities for Reconstruction and Continuous Sustainable of Pit Dwelling about the Village Ruins-	.....Ikumi NARAHARA (157)
Study on Structural Properties of Hanasen Joint in Sashigamoi Construction	.....Tatsuki NARUTAKI (163)
Experimental Study of Bed Deformation around Riprap Stone Works Placed on a Flat River Bed	.....Marie NOMURA (169)
Life at Doterrace Akashi City,Hyogo Prefecture	.....Hiroki HONJO (175)
Mori no Toshokan : Forest Library Reforestation of Mount Rokko	.....Masanori MIZUTANI (181)
Study on evaluation of sedimentary environment by microfossil analysis and relationship between soil color and soil properties	...Akiyoshi YAMAGUCHI (187)
