科目の概要	This course focuses on English conversation strategies and vocabulary building. Students will also practice using the grammar and vocabulary learned from their previous English classes, but these will be practiced in their spoken form more than their written form.	
テキスト(参考文献)	Conversation Strategies: Pair and Group Activities for Developing Communicative Competence (2nd Edition), by David Kehe and Peggy Dustin Kehe (2004) Pro Lingua Associates, ISBN: 978-0-86647-189-3.	
履修上の注意	Active participation in English is essential for completing this course successfully. Students who misbehave and students who are more than 10 minutes late for class may be counted absent.	
科目の達成目標	By the end of this course, students should be able to speak better English. The students will have improved vocabulary, a better command of speaking strategies used in English, and more confidence in their ability to communicate in English. (A-2, B-1, E-2)	
自己学習	Students must preview two chapters of the textbook each week for homework and be prepared to practice speaking English with their conversation partners in class using the conversation strategies that they studied that week.	
目標達成度(成績)の評価方法と基準	合格の対象としない欠席条件(割合)	1/4以上の欠課
	Students will be graded based on their performance on one written test (30%), one conversation test (40%), and homework assignments (30%).	
	When class participation and attention spans are lacking, the teacher reserves the right to give surprise quizzes at the end of his lectures. Grade results from these quizzes will be averaged into the 40% for the conversation test. Within that 40%, the conversation test will account for 70% to 100%, and the surprise quizzes (if any) will account for 0% to 30%. A passing grade will be 60% or greater.
