To this end, the students will be required to work on improving their English communication and presentation skills in the following areas and more: 1) Exploiting visuals 2) enunciating and projecting 3) using gestures and eye-contact 4) persuading an English speaking audience.	
自己学習	Students must prepare to write and re-write their presentation transcripts many times, and they should be able to use PowerPoint, Keynote, PDF, or similar slides to support their presentation. Students must also research their presentation topic thoroughly before presenting it.
